

Why Suffer?

Mrs. J. A. Cox, of Alderson, W. Va., writes: "My daughter... suffered terribly. She could not turn in bed... the doctors gave her up, and we brought her home to die. She had suffered so much at... time. Having heard of Cardui, we got it for her."

CARDUI

The Woman's Tonic

"In a few days, she began to improve," Mrs. Cox continues, "and had no trouble at all. Cardui cured her, and we sing its praises everywhere. We receive many thousands of similar letters every year, telling of the good Cardui has done for women who suffer from complaints so common to their sex. It should do you good, too. Try Cardui. SPEEDY ACTION ON PEACE TREATY WILL BE URGED

Senator Hitchcock Denounces Committee for Keeping Treaty in "Cold Storage" While the World Suffers.

IS CRUCIAL SITUATION

Administration Leader Declares Even- ing of League Control Committee, But Do Not Control Senate.

Washington, Aug. 17.—What promises to be one of the crucial weeks of the peace treaty fight in the Senate began today with the issuance of a formal statement by Senator Hitchcock, of Nebraska, the administration Senate leader, declaring condition throughout the country demanded that the treaty be brought out of the foreign relations committee promptly and ratified.

For five weeks, Senator Hitchcock said, the treaty has been "in cold storage" in a committee controlled by its enemies. Action on it should be the first step, he asserted, in dealing with the high cost of living.

During the week, the outstanding feature of which is to be the White House conference Tuesday between President Wilson and the committee Senator Hitchcock is expected to make

a speech urging that the treaty be brought to a vote and voicing opposition to any amendments.

Will Resume Hearings.

Tomorrow the committee will resume its hearings, questioning Thomas F. Millard, a writer on far eastern subjects, regarding the treaty provision which gives Japan control in Shantung. Against this provision Republicans Senators declare opposition is increasing and they argue that interest fully warrants withholding committee action regarding it until all the possible facts have been uncovered. Later in the week four other witnesses are to be heard.

So that committee consideration may not be interrupted, leaders said the Senate might have only a brief session tomorrow and then adjourn until Wednesday. Senator Owen, Democrat, of Oklahoma, has given notice he will speak on the league of nations. Several other addresses also are expected during the week.

Interest in Tuesday's White House conference increases as the time draws nearer. It is expected Mr. Wilson will be asked to disclose many of the inside developments in the peace negotiations, which the members say they have failed to get from the witnesses examined.

Hitchcock Wires Statement.

Senator Hitchcock's statement wired here from the Senator's summer home at Swampscott, Mass., was made public through the local office of the league to enforce peace.

"The treaty ratification situation," the statement said "changed somewhat during the past week. A new issue was raised when I asked the chairman of the foreign relations committee and majority members when they proposed to get action.

"I took this course after consulting with a number of Senators. There has been a growing demand for action by the committee. It has had the treaty since July 10. For five weeks, therefore, the treaty has been in cold storage without a vote or any other action.

"The Senate is waiting and the country is waiting and the impati-

ence is increasing. Everyone knows that the enemies of the treaty and opponents of the league of nations control the committee. Everyone also knows that they do not control the Senate. Public sentiment resents the suggestion that the opponents of the peace treaty might keep it locked up in committee and this greatly delays ratification.

Early Vote is Sought.

Mr. Hitchcock said it was the hope of the administration forces to begin voting in committee this week on proposed amendments, preparatory to having the treaty reported to the Senate in a week or ten days.

"It is of little importance," the Senator continued, "what the committee does as long as it does something. If it recommends amendments, the Senate will reject them. If it mutilates the treaty, the Senate will cure the damage done. The chief harm that the committee can do is in causing delay.

"Everyone now realizes that we are still suffering from war and that the first step toward relief is to ratify the treaty. The President's address served to arouse the country to the importance of the treaty ratification as one of the steps necessary to reduce the cost of living.

"He has very properly connected the high cost of living with the war. He has shown that the first step that must be taken is the ratification of the treaty."
